

Assignment 5: COMP 2680 (Fall 2019)

Part 1 (20 marks)

Case Problem 4 from Pages 732 to 734 of the text book. Files are provided on Moodle.

Part 2 (20 marks)

Focus on Web Design

There are web design usability and accessibility issues associated with HTML5 video. Visit the following sites to become aware of these issues:

- <https://mediaaccess.org.au/practical-web-accessibility/w3c-column/html5-media-player-accessibility-the-potential-and-the-reality>
- https://developer.mozilla.org/en-US/docs/Learn/Tools_and_testing/Cross_browser_testing/Accessibility
- <https://www.w3.org/2008/06/video-notes>
- <https://www.w3.org/html/wg/wiki/MultimediaAccessibility>
- <https://www.sitepoint.com/accessible-video/>

Write a two-page report that describes HTML5 Video usability issues that web designers should be mindful of, using Tahoma as the Font Type and 10 points as the Font Size.

Cite the URLs of the resources you used.
